

Lecture d'oscillogramme

Calculer pour chaque oscillogramme :

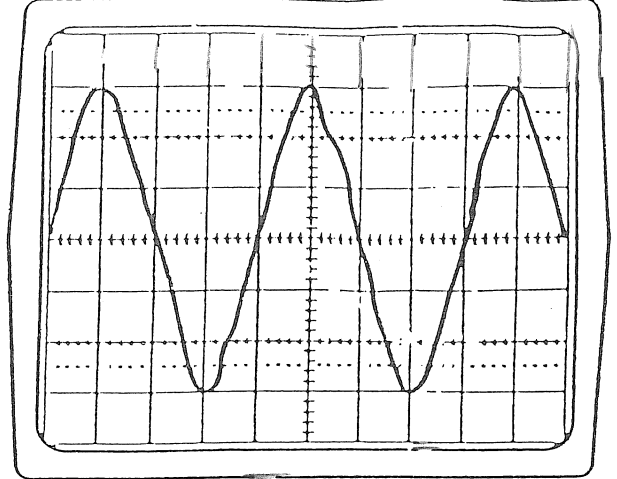

- La tension \hat{U}
- La tension efficace U
- La période
- La fréquence

1

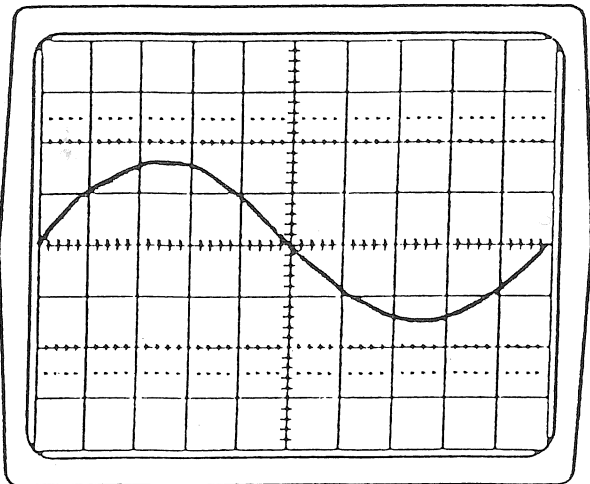

5V/div – 1ms/div

2

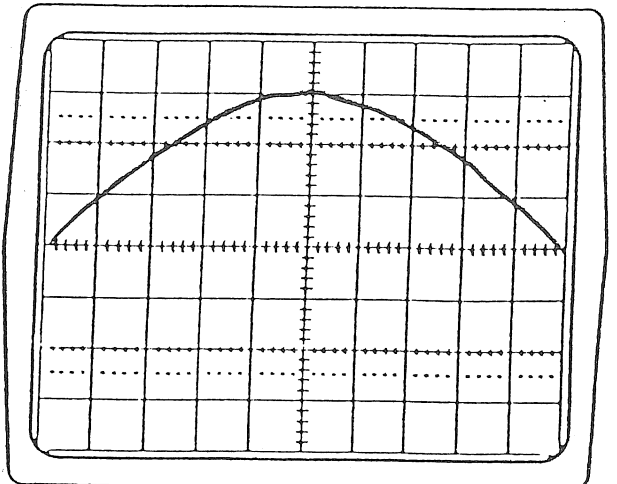

0,2V/div – 1 μ s/div

3

20V/div – 2ms/div

4

0,5V/div – 50ms/div
